	A D	The ammunition depot of the JINCE (N 50/L 44) military post was composed of two wooden buildings, one brick building with basement and red "Eternite" roof, and one semi-inderground ammunition storage bunker. The depot was located southwest of the JINCE barracks.			
25X1)	2., X	November 1949. become a milite	ary post for tank troo	arrived in early	

25X1X Comment:

An artillery range is located near JINCE. The reported ammunitiondepot is therefore stocked primarily with artillery ammunition. Further information is required to determine what tank unit, if any, is to be stationed in JINCE. The arrival of tank ammunition indicates that the JINCE artillery range may also be used as a tank firing range.
